

We are so glad we chose Rigby Tree Service! We needed 3 estimates after a mature Beech tree came down. Mr. Rigby was prompt returning my call, assessed the problem efficiently, and was able to give us his estimate immediately. Since we own 10 acres which are full of mature hardwoods, we were extremely interested in his knowledge of tree preservation. We offered the job to Mr. Rigby on Friday and were so appreciative that he brought his crew in the next day, even though it was a Saturday. He personally supervised his crew during the day long clean up. They were friendly, efficient, and completely organized. Mr. Rigby understood the logistics with our long, winding, narrow driveway and due to the location down a steep bank, after the wood was cut, they hauled it up to the chipper by hand rather than using heavy equipment. He made sure to preserve smaller trees, took care of other broken limbs, and offered suggestions in an effort to avoid wind/storm damage in the future to some of our other large trees. We would definitely use their service again and absolutely recommend them to everyone!
